

This 25ft cable actively buffers the incoming and outgoing signals to ensure compliance with the USB 2.0 specification for electrical and timing minimums. Designed for use with most USB 2.0 or 1.1 devices like some interactive whiteboards, hard drives and printers. Both low and high speed USB devices will function equally well with this extension cable. The active chip is built into the middle of the cable so you can add a 5 meter USB cable when the active cable is used in combination with a USB wall plate.

Features & Benefits

Extends USB 2.0 signals beyond the five meter length limitation

Center booster format allows this cable to be easily run through raceway

Consumes 100mA from the USB port of the computer

Specifications

General Info

Product Line	C2G	UPC Number	757120389897
Country Of Origin	China	Application Sector	Residential, Commercial
Type	Cable		

Dimensions

Cable Length	25 ft
--------------	-------

Additional Information

Prop 65 Warning Required	Yes	Prop 65 Warning Language	Cancer and Reproductive Harm
--------------------------	-----	--------------------------	------------------------------

Technical Information

Jacket Material	PVC (Polyvinyl Chloride)	Wire Gauge	28 AWG
Cable Type	USB, Active Copper Cable	Data Transfer Rate	480 Mbps

Adapter Rear

USB-B Male

Adapter Front

USB-A Male
